PROJECT

MAIN-PROJECT

Project Name : METAMORPHOSIS OF PASSWORD
Technology used: JAVA

- ❖ The project is to develop a password transmission scheme for password to ensure security and privacy by rasterizing the characters in the password and sending it in different byte order based on generated random number.
- ❖ Password is never sent to the server. During both registering and login, rasterized image is sent to the server.

MINI-PROJECT

Project Name : DIGITAL VEHICLE
Technology used – FRONT END : HTML
Technology used – BACK END : PHP

- ❖ The project is to develop vehicle details that are stored to database and update license, RC book and registration of the vehicles.
- ❖ User can pay the petition via online.
